## FIRE DIVISION Fire Protection System

## ABOUT US

WE ARE A GROUP OF FIRE PROTECTION SYSTEM PROFESSIONAL COMPANY HOLDING COMPETENT ENGINEERS & SKILLED TECHNICIAN FOR FIRE SYSTEM INSTALLATION, MAINTENANCE, TESTING & COMMISSIONING AROUND SAUDI ARABIA.

**E-GROWTH** is a group of trained civil defence approved & NFPA Certified individuals, who make sure that all your life-saving products are working optimally. All in all, Engineering design, installation, testing and commissioning and Maintenance of the system. They do this through regular checks and update all your devices. After each Inspection, report is sent to you so that you know the status of your system. We make sure that your equipment is ready to perform when you need it the most. As a part of the AMC, we take over your existing system and closely monitor all crucial elements including firefighting, Fire alarm, Emergency Lighting, Voice Evacuation, Fire Pumps, Fire Extinguishers and Gas Suppression System. As part of the AMC, we also help our clients with the necessary documents, clearances and periodic certifications that are required to install and maintain their firefighting systems.

**E-GROWTH** team is committed to deliver high quality service onsite – wherever your facility and employees are located.

**FIRE EQUIPMENT SUPPLY**

## FIRE PROTECTION SYSTEM Installation & Testing

- ❑ For every product, we install and provide services for firefighting equipment. We keep an AMC of Fire Fighting Systems with our clients in order to replace any malfunctioning fire safety systems and equipment that are installed on their property.
- ❑ In an effort to increase the equipment's lifespan that is installed on the customers' end. We are able to keep the systems operating smoothly and error free thanks to this maintenance service.

FIRE ANALYSIS

FIRE RESPONSE

## FIRE RISK ASSESSMENT

- We provide building regulations consultancy for both residential and non-residential properties.
- We do surveys and risk assessments for fires.
- A wide range of topics are covered by fire safety consulting, but it is primarily used to discuss aspects of fire safety design that have an impact on people, such as travel routes, fire compartmentation and separation, building materials and how they contribute to the spread of fire, exit lighting, fire detection and alarms, fire and considerations, and fire protection systems.

## FIRE RISK ASSESSMENT

# ANNUAL MAINTENANCE CONTRACT-AMC

**Having problems with your existing firefighting and fire alarm systems?**

We could be of help by serving you with an Annual Maintenance Contract (AMC). You could avail our services 24/7 for an AMC with the assurance of quick response and responsibility.

## **Why only authorized AMC**

Our technical team is a group of skilled, trained and authority-approved engineers & technicians who undertake a Quarterly Service Schedule for AMC customers to ensure that every equipment in the client's premises is always working optimally.

We provide Proficiency Certificate upon fitness of the system.

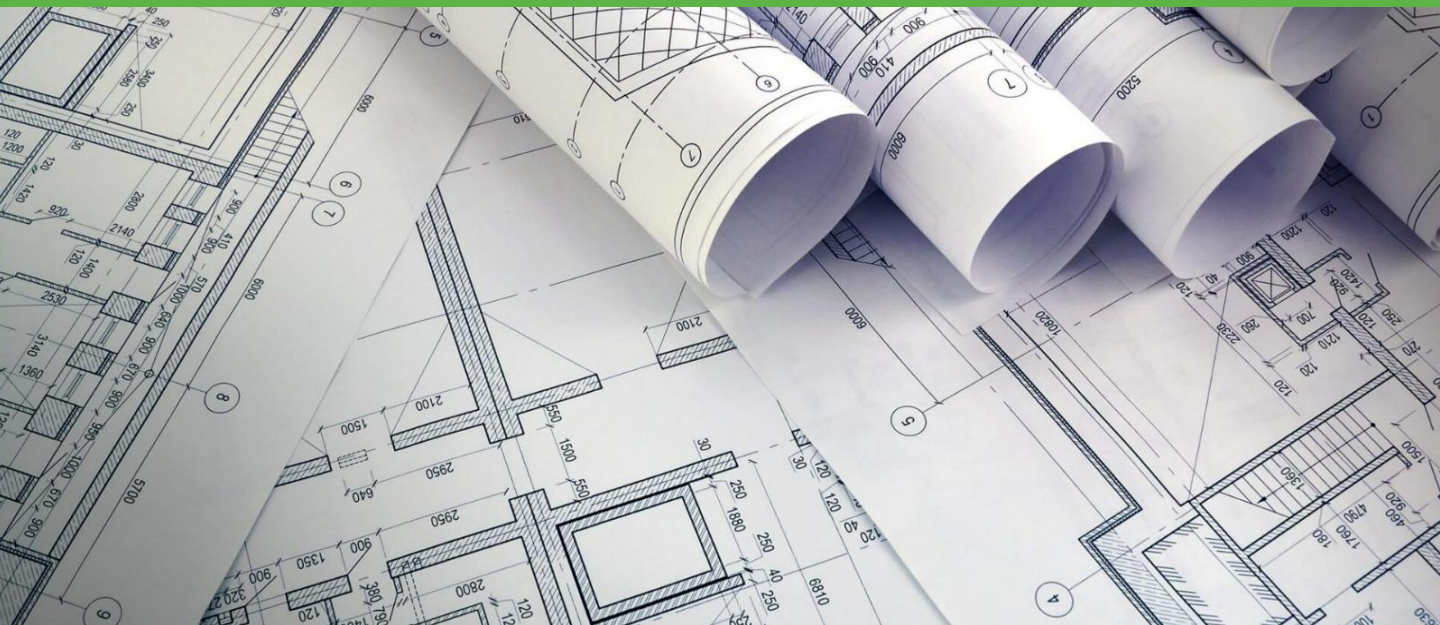

## FIRE SYSTEM PROJECT DESIGN & CALCULATION

- ❑ For every product, we work on engineering projects involving firefighting apparatus. Our projects adhere to the Saudi Building Code and NFPA standards, which are followed both nationally and internationally. We have skilled engineers whose designs are in line with those of contemporary facilities. The projects are designed with contemporary fire systems and updated with the technologies needed by today's industry.
- ❑ In an effort to increase the equipment's lifespan that is installed on the customers' end. We are able to keep the systems operating smoothly and error-free thanks to this maintenance service
